Say no to plastic

100 % Biodegradable

Edible straw

“ Say No To Plastic Straw ”

ECO STRAWS VIETNAM EXPORT JOINT STOCK COMPANY was founded in 2011 in machinery major. We - on the threshold of the trend of green consumption - open a new brand for eco products to contribute to the improvement of the marine environment, reduce plastic waste and plastic straws.

They are 100% all-natural straws, produced from starchy cereals, vegetables and fruits with special formulas. Our straws can be used to replace plastic straws and even as cooking ingredients. If you accidentally throw away our straws and they are blown away to rivers, lakes or the sea, they can be considered as a good food source for fish and marine life.

Eco Straws Vietnam commits to make our products from 100% natural materials, while emitting no carbon dioxide - by making use of solar power.

The number of our employees is over 100 people including office staff, skilled workers. Our Capacity could reach 10 containers 40ft or more depending on order lead time. We have been exporting our products to main markets such as United State, Australia, Switzerland...

“ We Create
Green Life ”

Story of Rice

From the far East Asia, Rice has become friend of human for thousand years. Rice is not only the main cereal but also inspiration for many creations of our living. On the field, raised by the hand of hard-working farmer, the rice plants absorb the fresh air, nutritious alluvial water until the aristas heave and ripe golden.

We chose the best source of hand-harvested rice, cosher and proceed artwork-likely to create products that are so useful and close to daily life. By that way, we not only praise the value of the Rice, but also support to the honorable farmer.

The Source

Step 1: Our edible straws and other product are made from rice flour and color of products from vegetable that naturally from Viet Nam. The raw material has been strictly tested before it comes to the factory.

Step 2: Rice is collected, then pulverized, sorted and cleaned. There is no chemicals or additives used in the entire manufacturing process. It is 100% chemical free.

Step 3: In order to create the unique and beautiful product, they are pushed by heated die, then steaming, drying and cutting. Multiple plates, rice straws and cutlery can be made from after strict processing.

Product Specification

Material	Rice Flour Mix Water
Weight	4g+-1g
Size	Length 220mm (+-2mm)xΦ6, Φ8, Φ12
Shelf Life	24 months
Storage Instruction	Dry and cool place
MOQ	100,000 pcs
Straws Disposal After Use	Be used as feed, compost, or food waste, 3-6 months of natural degradation, in and outdoor environment
Advantage	Eco friendly, stocked
Delivery Time	7-15days
Usage	Daily use/gathering/parties/camping/restaurant/hotel
Place of Origin	Viet Nam
Brand Name	ECOSTRAWSVIETNAM
Packaging	Factory normal way: paper box

Water Resistance

This test is performed within 24 hours in all the three size. The final result is water resistance for for 18-24 hours without breaking or a little bit of cloudiness

STRAWES	NORMAL CONDITION	NORMAL WATER	WARM WATER	COLD WATER
STATUS	24 months	Solidity during 15-35 mins	Solidity during 10-20 mins	Solidity during 18-45 mins
		Water resistant for 18-24 hours, the product is only soft without cracking, cloudiness and changes in beverage taste	Water resistant for 18-24 hours, the product is only soft without cracking, cloudiness and changes in beverage taste	Water resistant for 18-24 hours, the product is only soft without cracking, cloudiness and changes in beverage taste
