Commodity Packaging

As an export-focused company, Nafoods offers industry-standard packaging available in our customers' home markets. Customized packaging solutions are available for certain volumes.

Factory Information

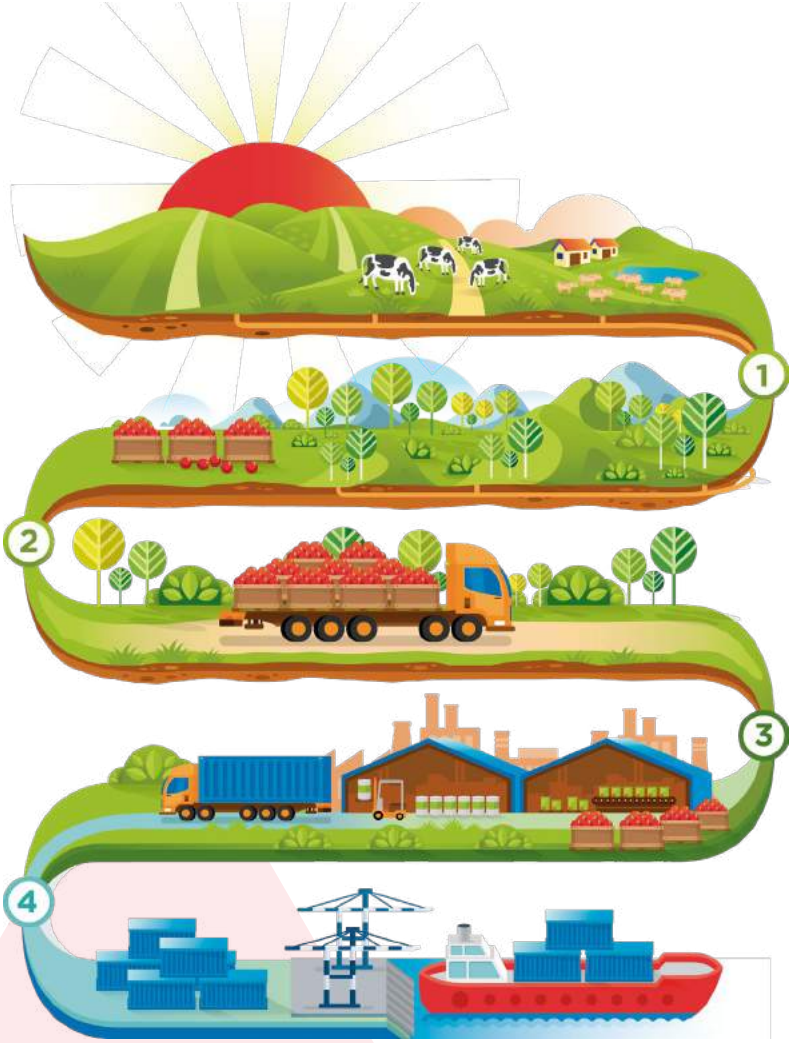

The chain of factories of Nafoods Group are evenly distributed throughout Vietnam, including: Nghe An province, Long An province, Son La province, Gia Lai province and Binh Thuan province. We operate four processing lines, using Italian and German processing technology.

Total capacity of more than 20,000 tons of products per year, meeting the needs of domestic consumption and export, creating good jobs for thousands of people across the province.

Value Chain

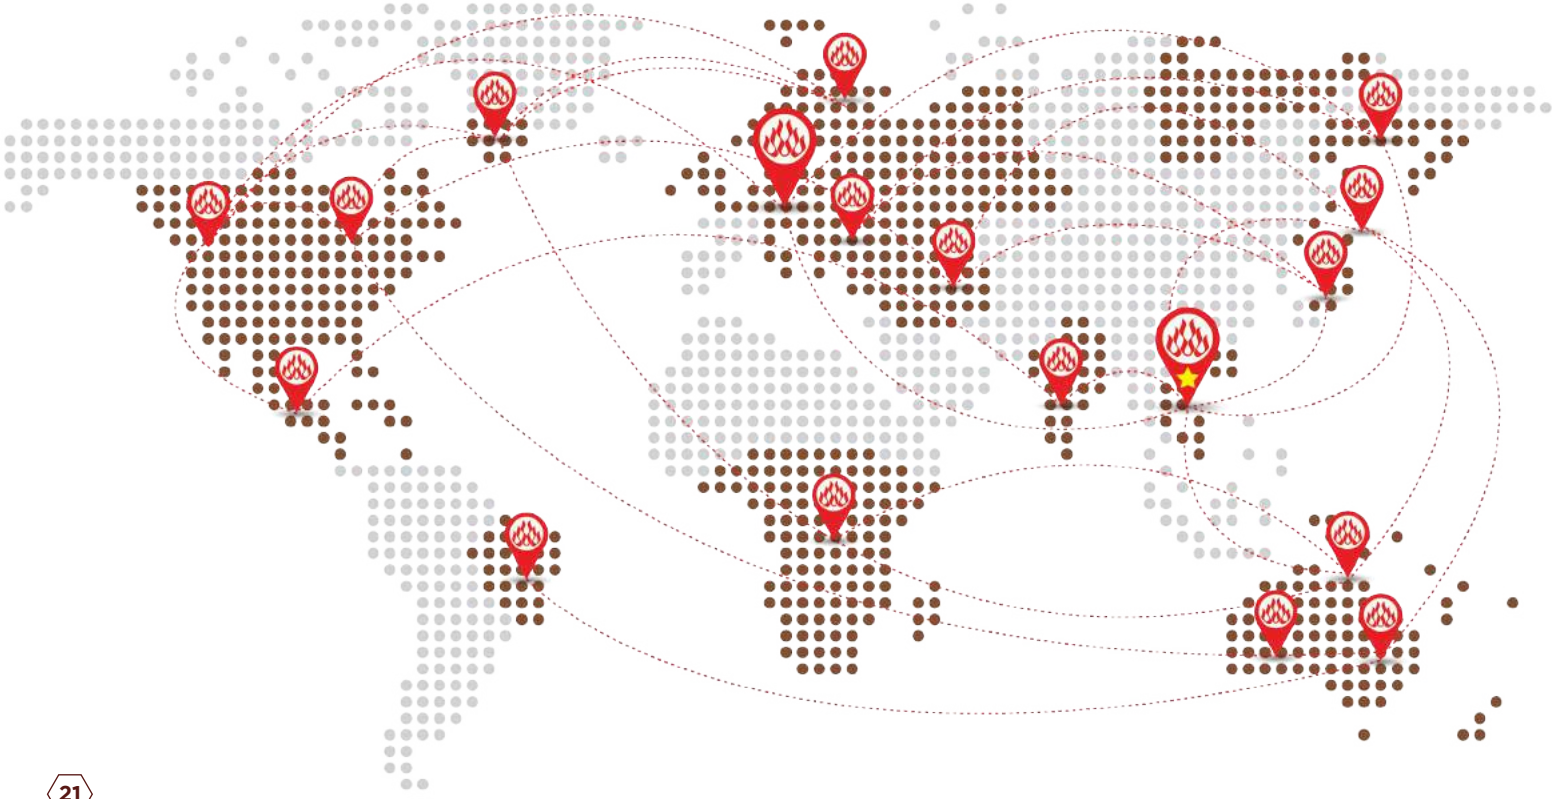

1. Seedling
2. Raw material area
3. Production And Processing
4. Distribution – Consumption

Market

Nafoods' collective experience spans throughout the world. Our team works with some of the world's largest agricultural conglomerates and distributors to deliver local grown produce to global clients on par with international standards. We have experience sourcing and manufacturing with over 40 different fruits and vegetables, and the capacity to process 200 metric tons of raw materials per day. Our products are tasted everyday in over 70 countries throughout the world.

Sustainability

Nafoods sources from both proprietary farms and contract producers, with approximately 70% of raw materials coming from either smallholder farmers or ethnic minorities. For growing families living at or below the poverty line, the company offers education programs and financial assistance to foster sustainability in its supply chain.

Combining social initiatives, physical infrastructure, and international partners, Nafoods is a vital local community stakeholder seeking to establish itself as the dominant regional brand.
