SONHA HIGH-GRADE KITCHEN SINKS

Worthy of a masterpiece - Space adornment

- SUS304 material which is top in quality and durability
- Produced on the most modern Korean technology line in Vietnam

MODEL: S82

Specifications:

- Material: SUS304
- Dimensions: 820 X 440 X 215 mm
- Hole dimensions: 800 X 420 mm

Outstanding advantages:

- Monolithic pressing technology according to European standards
- No solder, smooth details
- Anti-counterfeiting logo laser engraving technology
- Sound-proof electrostatic powder coating technology
- Effective siphon design prevents odors

MODEL: S105

Specifications:

- Material: SUS304
- Dimensions: 1050 X 440 X 215 mm
- Hole dimensions: 1030 X 420 mm

Outstanding advantages:

- Monolithic pressing technology according to European standards
- No solder, smooth details
- Anti-counterfeiting logo laser engraving technology
- Sound-proof electrostatic powder coating technology
- Effective siphon design prevents odors

MODEL: S80

Specifications:

- Material: SUS304
- Dimensions: 800 X 440 X 215 mm
- Hole dimensions: 780 X 420 mm

Outstanding advantages:

- Monolithic pressing technology according to European standards
- No solder, smooth details
- Anti-counterfeiting logo laser engraving technology
- Sound-proof electrostatic powder coating technology
- Effective siphon design prevents odors

MODEL: S50

Specifications:

- Material: SUS304
- Dimensions: 500 X 420 X 210 mm
- Hole dimensions: 480 X 400 mm

Outstanding advantages:

- Monolithic pressing technology according to European standards
- No solder, smooth details
- Anti-counterfeiting logo laser engraving technology
- Sound-proof electrostatic powder coating technology
- Effective siphon design prevents odors

MODEL: S76

Specifications:

- Material: SUS201
- Dimensions: 742 X 412 X 190 mm
- Hole dimensions: 727 X 397 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: SHN1H0B-447

Specifications:

- Material: SUS201
- Dimensions: 447 X 361 X 170 mm
- Hole dimensions: 432 X 346 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: S79

Specifications:

- Material: SUS201
- Dimensions: 752 X 400 X 160 mm
- Hole dimensions: 737 X 385 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: S78

Specifications:

- Material: SUS304
- Dimensions: 780 X 430 X 215 mm
- Hole dimensions: 760 X 410 mm

Outstanding advantages:

- Monolithic pressing technology according to European standards
- No solder, smooth details
- Anti-counterfeiting logo laser engraving technology
- Sound-proof electrostatic powder coating technology
- Effective siphon design prevents odors

MODEL: S76S

Specifications:

- Material: SUS201
- Dimensions: 742 X 412 X190 mm
- Hole dimensions: 727 X 397 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: S100S

Specifications:

- Material: SUS201
- Dimensions: 986 X 416 X190 mm
- Hole dimensions: 971 X 401 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: S79S

Specifications:

- Material: SUS201
- Dimensions: 752 X 400 X160 mm
- Hole dimensions: 737 X 385 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

MODEL: S100

Specifications:

- Material: SUS201
- Dimensions: 986 X 416 X190 mm
- Hole dimensions: 971 X 401 mm

Outstanding advantages:

- High quality eco-friendly stainless steel material; safeguards your family's health
- Sound-proof, anti-condensation features help increase product durability

HANDMADE SINKS

- 01** | Using High-quality SUS304 stainless steel, which has exceptional resistance to corrosion, creating a long lasting product
- 02** | The kitchen has an impression of refined modernity thanks to the hairline scratched surface treatment
- 03** | Cleaning effortlessly without water splashing out
- 04** | Surface with no corners or folds allows simple cleaning and rapid installation
- 05** | Soundproof rubber is affixed to the sides, and bottom of the sink
- 06** | Fast drainage, completed odor suppression, and exceptional durability are benefits of the siphons' construction from high-quality stainless steel and primary plastic 7
- 07** | Handmade by specialized workers using the most modern machines

SPECIFICATIONS

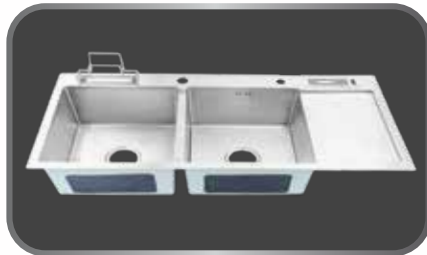

MODEL: HM.X.2C.82.2.3

- Material: SUS304 – Thickness: 0.8mm– Surface: 2mm
- Dimensions: 820x450x215 mm
- Sink bowl dimensions: 372x350 mm

MODEL: HM.X.2C.82.2.2

- Material: SUS201–Thickness: 0.8mm– Surface: 2mm
- Dimensions: 820x450x215 mm
- Sink bowl dimensions: 372x350 mm

MODEL: HM.X.2C.100.2.3

- Material: SUS304 –Thickness: 0.8mm– Surface: 2mm
- Dimensions: 1000x450x230 mm
- Sink bowl dimensions: 350x350 mm
- Side table dimensions: 330x224 mm

MODEL: HM.X.2L.82.2.2

- Material: SUS201–Thickness: 0.8mm– Surface: 2mm
- Dimensions: 820x450x215 mm
- Left sink bowl dimensions: 405x400 mm
- Right sink bowl dimensions: 340x350 mm

MODEL: HM.X.1C.60.2.3

- Material: SUS304 – Thickness: 0.8mm– Surface: 2mm
- Dimensions : 600x450x230 mm
- Sink bowl dimensions: 550x350 mm
