

GOOD QUALITY GOOD PRICE

Vietnamese Products

ABOUT US

Viet Nam - a tropical country - owns lots of fresh fruits, nuts and vegetables, which makes the Vietnamese always proud.

Founded in 2020, **TNM-Vietnamese Agricultural Products Co., Ltd** wishes all our friends worldwide to discover the fantastic taste of Vietnamese fruits, nuts and vegetables. Being led by our experienced team in agricultural products, TNM's Vietnamese products are not only tasty but also very healthy. More importantly, each of the products we deliver is to contain lots of nutrition for health and beauty.

Passing 3 experienced years in the market, we realized that fresh fruits and other Vietnamese products also attract all friends over the world. TNM Products Co., Ltd now has diversified our products and broadened our destination markets to meet overseas demands which are going up.

MISSION

Our mission is to process and provide healthier products that also keep up with the consumer's modern-life needs. We are motivated to bring Vietnam's best agricultural and food products to the World.

OUR VISION

Diversify products and expand the business market to satisfy all needs of our customers from over the world

SOFT DRIED MANGO

Soft dried mango is processed from selected fresh mangoes in Mekong delta, Vietnam. Low temperature drying technology (Heat-pump drying system) is applied to maximize the preservation of nutrients, taste, and flavor in the final product. The advantages in R&D and processing experience make our dried mango a stand-out product in the market.

No additives or preservatives added.

Soft dried mango is one of our best-sellers up until now.

Mango is one of the most delicious tropical fruits and its dried slices are the best choice for the countries which cannot grow this fruit. This healthy treat is chewy, tasty and naturally sweet.

Dried mango is processed according to BRC standard and ISO22000 standard for exportation.

SOFT DRIED JACKFRUIT

Our dried jackfruit is manufactured from Thai (Siam) or La Bang varieties depending on our partners' preference. Suitable ripeness determines the texture, flavor, and nutrient content of the product. We add a little of sugar during processing for preservation and taste improvement. If you concern about sugar, you can try our sugar-free dried jackfruit.

Our factory is equipped with the advanced drying systems, employing heat-pump drying technology, and that facilitates us dry the fruit at lower temperatures for a shorter time compared to the conventional hot air drying method. This helps preserve nutrients and flavor of the fresh fruit in the final dried products. Dried jackfruit is processed according to BRC standard/certificate so it is can be exported to all countries of the world.

SOFT DRIED PASSION FRUIT

Our product is manufactured from carefully selected passion fruits grown in the Central Highlands of Vietnam, where cool weather and suitable attitudes together with fertile basaltic soil provide optimal conditions to bear fruits of high nutrients, rich in flavor and attractive in color. In fact, Vietnam passion fruits are becoming popular in the world.

The product has been researched and processed carefully according to our key principle ~ preserving the value of nature using low-temperature heat-pump technology and infrared technology. The final product is still fresh and retain the highest amount of nutrients. Try it, and trust that one piece would never be enough!

The sizes and shapes of the final product can be made according with the partners' requirement. The product is processed according to BRC and ISO 22000 standards so it can be exported to any countries of the world.

Package: 2.5kg/PE bag, 5kg/PE bag, 10kg/carton. We accommodate retail packaging for your private label.

Shelf Life: 12 months

DRIED DRAGON FRUIT, NO SUGAR ADDED

Dragon fruits have a high moisture content. After drying, the majority of the water is evaporated away and nutrients are concentrated. The taste becomes enriched. The seeds provide a good amount of dietary fibers, essential fatty acids (which helps reduce risks of cardiovascular diseases but our body can not synthesize and has to intake from food), fat-soluble proteins such as vitamin A and E, and other antioxidant components.

Packages: 2.5 kg/bag, 10kg/carton. We accommodate retail packaging for your private label

Standards: BRC certificates, GlobalGAP produce
